

# access training

## Success starts with Access...

Congratulations to Laretta who has completed her NVQ Level 3 in Health & Social Care in just 4 months! Laretta has worked extremely hard and has been very motivated, which resulted in her achieving early!

*"I started my NVQ level 3 in Health and Social care in September and even though this was a qualification that I wanted to gain I was very apprehensive about what was expected of me.*

*On my assessors first visit she (Sacha) put me at ease and dispelled many of my concerns and explained that there was many ways in which she could help me complete the NVQ. I also had very specific time frames of how long I wanted to complete it by and Sacha helped me reach my target in the time frame agreed.*

*When I began to find my dyslexia was causing me a problem Sacha provided me with the use of a laptop. Sacha has helped me understand what was asked of me in the units by sometimes explaining it in different ways in which I could understand them. Sacha has been a great support not only with the NVQ but also by offering emotional support and providing information that advised me of my rights."*

**Laretta Snape**

Despite starting the programme apprehensive and concerned about her dyslexia, Laretta coped well with the work and proved her knowledge by discussions and observations. Laretta was issued with a laptop as this was identified as a good resource for her to focus on the written word and gave her confidence in her spelling ability.
