

access training

Success starts with Access...

Congratulations to Emma who has achieved her Advanced Apprenticeship in Health & Social Care! Emma worked really hard on her course work and overcame difficulties at the start of the programme through no fault of her own to achieve the award 4 months early! Emma was a dedicated learner which showed a great amount of knowledge and her performance also showed that she truly cared for the residents in her care.

“My NVQ has taken me quite a while to do but I have enjoyed it. I have learnt a lot from having to research things and gained more information on things that I already knew. I had a very understanding assessor Sacha Lee that put things into terms I could understand and was always at the end of the phone if I needed her ”

Emma Spradon

Emma would be the first to admit that she struggled with understanding some of the written work given but using new approaches, techniques and methods we were able to adjust the course to suit her needs which lead to her success.
