

access training

Success starts with Access...

Congratulations to Cheryl who has achieved NVQ Level 3 in Childrens Care, Learning & Development. Cheryl has been able to seek employment suitable for her to work around her son's care.

Cheryl is a lone parent and has had no education since leaving school. She has a 2 year old son who is her life and as she had gained a little independence since he had started playgroup she wanted to do something for both herself and him. Cheryl did some volunteering at the playgroup and spoke to one of the staff who told her about training in childcare and decided to follow this up.

“This course has been a life changing experience for me and has opened new doors to mine and my son's future”

Cheryl was very shy and unsure when she first started her training and lacked confidence in the work she submitted.

Cheryl says “At times it has been difficult juggling being a mum and a student but with the support given by my assessor and staff at the nursery it has been achievable.”

“When leaving my son for the first time was hard as I had never left him before, he did not settle well at first which broke my heart, eventually he settled which made it easier for me. Work was clearly planned and agreed and I could always contact my assessor if I had any worries. I have completed my course and have been able to get a job with my son's sister nursery. I have gained lots of new friends and skills as well as good relationships with parents in my community.”
