ASSISTANT PRACTITIONERS IN HEALTHCARE LEVEL 5

www.atem.co.uk   0330 002 6266
Who is this qualification suitable for?

An assistant practitioner works under the supervision of a Registered practitioner in accordance with the employer policy, protocols and standard operating procedures. An assistant practitioner works as part of the wider health and social care team and will have direct contact with patients, service users or clients providing high quality and compassionate care. As an assistant practitioner you will work at a level above that of Healthcare Support Worker and have a more in depth understanding about the factors that influence health and ill health (eg anatomy and physiology).

Examples of common work activities include assisting in total patient assessment, coordination of care (including referrals to other practitioners) and higher clinical skills such as catheterisation, wound care and discharge planning.

Your role will consist of:

- Risk management, including completion of risk assessments
- Undertake and teach physiological measurements
- Manages own case load and implement programs of care and modify care plans within scope of practice
- Nutrition - promote affective nutrition. Demonstrate use of equipment e.g., PEG feeds, nutrition, intravenous fluids.
- Patient contact and care delivery role on a daily basis
- Staff teaching in relation to Safeguarding induction on a continual training of staff safeguarding
- Safeguarding lead/officer
- Supervision of staff/conduct personal development plan with staff
- Lead team meetings
How do I enrol?

1. Visit our website www.atem.co.uk
2. Complete an application form
3. We check your application
4. We set you up with English and/or Maths assessments if required (see exemptions.)
5. We complete an interview with you and your manager as part of initial assessment
6. Complete an assignment set by Access Training
7. Enrolment

STANDARD

This is the breakdown of the Assistant Practitioners in Healthcare Level 5 qualification, which shows the different elements that go together to form the Apprenticeship.
### Exemptions

If you have any of the following then you may be exempt from English and Maths assessments and the corresponding Functional Skills parts of your qualification.

- GCSE English Language Grade C or higher
- GCSE Mathematics Grade C or higher
- Functional Skills English L2 or higher
- Functional Skills Maths L2 or higher

### WHAT’S INCLUDED (STANDARDS)

**Assistant Practitioners in Healthcare**

#### Values and behaviours

<table>
<thead>
<tr>
<th>Values</th>
<th>Behaviour</th>
</tr>
</thead>
<tbody>
<tr>
<td>Honest</td>
<td>• Treat individuals with dignity, respecting individual’s beliefs, culture, values and preferences</td>
</tr>
<tr>
<td>Caring</td>
<td>• Respect and adopt an empathetic approach</td>
</tr>
<tr>
<td>Compassionate</td>
<td>• Demonstrate courage to challenge areas of concern and work to best practice</td>
</tr>
<tr>
<td>Conscientious</td>
<td>• Be adaptable</td>
</tr>
<tr>
<td>Committed</td>
<td>• Demonstrate discretion</td>
</tr>
</tbody>
</table>

#### Knowledge

- the principles and philosophy of health and social care
- the physiology, organisation and function of the human body
- lifespan developments and healthcare needs from prenatal to end of life/bereavement
- research and development in the health and social care sector to inform and improve quality of care
- provision and promotion of holistic person centred care and support, duty of care and safeguarding of individuals
- the importance of the strategic environment in health and social care and the implications for the individual
- the importance of current evidence based practice within scope of the role
<table>
<thead>
<tr>
<th>Responsibilities and duty of the role</th>
<th>Undertakes defined clinical or therapeutic interventions appropriately delegated by a Registered Practitioner.</th>
</tr>
</thead>
<tbody>
<tr>
<td>Case Management</td>
<td>Manages own work and case load and implements programmes of care in line with current evidence, taking action relative to an individual's health and care needs.</td>
</tr>
<tr>
<td>Supervision and Teaching</td>
<td>Allocates work to and supports the development of others and may supervise, teach, mentor and assess other staff as required.</td>
</tr>
<tr>
<td>Personal Development</td>
<td>Maintains and further develops own skills and knowledge, and that of others, through recognised Continuing Professional Development (CPD) activities enabling flexibility in practice and responsiveness to changing service needs.</td>
</tr>
<tr>
<td>Team Working</td>
<td>Promotes effective inter-professional and multi-disciplinary team working with peers, colleagues and staff from other agencies and provides appropriate leadership within the scope of the role.</td>
</tr>
<tr>
<td>Assessment</td>
<td>Provides holistic assessment of individuals, implementing programmes of care and modifying individualised care plans within their scope of practice.</td>
</tr>
<tr>
<td>Communication</td>
<td>Demonstrates the ability to communicate complex sensitive information to a wide variety of professionals through a variety of methods including the use of interpersonal skills, written and verbal effectiveness, accurate record keeping, keeping information confidential and appropriate use of technology and equipment for the role including data entry.</td>
</tr>
<tr>
<td>Person-centred care and wellbeing</td>
<td>Promotes and understands the impact of effective health promotion, empowering, healthy lifestyles such as movement and nutrition and fluid balance.</td>
</tr>
<tr>
<td>Physiological Measurements</td>
<td>Undertakes physiological measurements as part of an assessment of an individual's healthcare status and following evaluation, makes appropriate changes or recommendations to care plan. Reports changes to the Registered Practitioner when the nature of the change falls outside of the agreed scope of role.</td>
</tr>
<tr>
<td>Risk Management</td>
<td>Infection Prevention and Control: Uses and promotes a range of techniques to prevent the spread of infection including hand hygiene, the use of Personal Protective Equipment (PPE) and waste management. Health and safety: Promotes and maintains a safe and healthy working environment Risk Management: Identifies and manages risks, including assessment of moving and handling risk and understanding the nature of risk as it applies to the safeguarding of vulnerable individuals.</td>
</tr>
<tr>
<td>Equality and Diversity</td>
<td>Promotes and advocates Equality, Diversity and Inclusion (EDI).</td>
</tr>
<tr>
<td>Quality</td>
<td>Proactively makes recommendations to improve the quality of service delivery.</td>
</tr>

</table>
Off the job learning

Off-the-job refers to the time taken to develop technical skills and knowledge of theoretical concepts across a range of contexts. It can be seen as time away from ‘the immediate pressures of the job’, and may include all of the following (non-exclusive) activities:

- Individual and Group teaching
- Coaching
- Distance learning
- e-learning
- Feedback and Assessment
- Guided study
- Learning with peers
- Networked or collaborative learning
- Mentoring

You may attend sessions at Access Training during your qualification and you will have an assessor visit you in the workplace. You will need to spend some time at home providing written accounts and research for your portfolio.

On the job learning

On-the-job refers to the time taken to develop the practical skills applied in the context of a job role. It can be seen as the time you spend being guided whilst undertaking normal activities as part of your job role, and which provide opportunities to learn, develop and practice skills.

How will learning take place?

Functional Skills

- Maths (Level 2)
- English (Level 2)

You will complete Functional Skills in Maths and English. Assessments are designed to measure the competent application of skills within real-life scenarios. Assessments are task based with no portfolio to complete. These can be completed on-screen, offline or paper-based. Completion of Functional Skills may not be required where evidence of a current transferable skills qualification exists e.g. GCSE.

Expert witness

An expert witness must:

- have a working knowledge of the QCF units on which their expertise is based
- be occupationally competent in their area of expertise
- have either a qualification in assessment of workplace performance or a professional work role which involves evaluating the every day practice of staff
The Assessment Process

Access Training use a blended learning model which means that training, assessment and support will be delivered in a variety of ways to suit you and your employer. Webinars, e-learning, and Skype will be combined with face-to-face visits and self-study to provide flexible learning that you can access when and where you want - whether that’s during an appointment in working hours, taking part in a Skype call at your desk or watching a video on your phone.

Achievement of the qualification is based around the provision of sufficient evidence to show that the job can be done to the national standards. You need to collect a variety of evidence and this collection of evidence is called a ‘portfolio’. This will be done electronically via an e-portfolio and your assessor may use any of the following for sources of evidence:

Performance at Work (Observation)
Your assessor will observe your performance in the work place against the national standards.

Work Product
There may be tasks that you routinely carry out which are applicable to your qualification – i.e. send and receive emails. The products of these tasks may be used as evidence, as long as the evidence is sufficiently current and relevant to the standards.

Recognition of Prior Learning
This could be a relevant qualification or achievement, for example, First Aid, Safeguarding etc. This is sometimes referred to as ‘Recognition of Prior Learning’ and abbreviated to RPL.

Witness Statement
Witnesses can provide evidence of the way the job is done, usually in the form of a witness statement. Your supervisor/line manager will provide you with the testimony relating to your performance at work.

Questioning
Questioning may be oral or written. Your assessor will ask you questions to make sure you have the necessary knowledge and understanding to carry out your job activities to the national standard. Where suitable, your assessor may electronically record question and answer sessions.

Professional Discussion
Your assessor may use a dictaphone or smartphone to record a professional discussion. These will be based on activities you have taken part in and are a good way for yourself and your assessor to discuss and explore the event.

Reflective Account
Reflective accounts are used to reflect on your working practice. You will be asked to provide a statement on how you have carried out a task e.g. how you dealt with an accident, this will then be assessed and used as evidence of your competence.

End point Assessment

The end point assessment includes the following components:
1. A multiple choice and short answer test
2. An observation of practice undertaken in the workplace
3. A reflective journal completed by the apprentice and an interview
Assessment Flowchart

1. **Registration**
   - The apprentice registers for the apprenticeship programme with their employer

2. **On-programme**
   - Meet the 15 standards required by the Care Quality Commission [as set out in the Care Certificate]
   - Level 2 English and Maths
   - A regulated Level 5 Occupational Competence Qualification
   - A reflective journal completed during the final 3 months

3. **Gateway**
   - The employer decides the apprentice is ready for the end point assessment and notifies the Independent Assessor

4. **Test**
   - The apprentice completes a multiple-choice and short answer test.

5. **Practical Observation**
   - The independent assessor carries out a practical observation of the apprentice.

6. **Reflective Journal & Interview**
   - The independent assessor reviews the apprentice's reflective journal and interviews the apprentice.

7. **Grading**
   - The independent assessor grades the apprentice.

8. **Certification**
   - The apprenticeship is complete.
   - Successful apprentices claim their apprenticeship certificate.
20% Off-the-job training

Over the course of the apprenticeship, each learner will be required to spend 20% of their time doing off-the-job training and this will be documented through the assessor.

Off-the-job training is defined as learning which is undertaken outside of the normal day-to-day working environment and leads towards the achievement of the apprenticeship. This can include training that is delivered at the apprentice’s normal place of work but must not be delivered as part of their normal working duties.

The off-the-job training must be directly relevant to the apprenticeship STANDARD or standard and could include the following:

- The teaching of theory (for example; lectures, role play, simulation exercises, online learning or job specific training)
- Practical training, such as; shadowing, mentoring, industry visits and attendance at competitions
- Learning support and time spent writing assessments/assignments
- Team meetings

It does not include:
- English and Maths (up to level 2) which is funded separately
- Progress reviews or on-programme assessment needed for an apprenticeship STANDARD or standard
- Training which takes place outside the apprentice’s paid working hours
- Access Training Induction
