More about Apprenticeships

An Apprenticeship is a real job with an accompanying skills development programme. It is a way to earn while they learn and gain valuable skills and knowledge in a specific job role.

They must spend at least 20% of their time on off-the-job training which will consist of a wide mix of learning in the workplace, workshops, e-learning, mentoring, self-study and the opportunity to practise new skills at work. Apprenticeships typically last between 12 - 24 months and our roll-on, roll-off model means there is no waiting for course start dates.
